Announcement.

We are authorized to announce A. L. Shannon as a candidate for Sheriff of Lawrence county, subject to the action of the Democratic Convention.

The U. S. Senate on last Friday passed 527 pension bills in less than an hour and a half.

Roscoe Conkling is suffering from a dangerous brain trouble from which it is thought he is not likely to recover.

A large majority of the members of Congress express themselves as favoring the appointment of Mr. Carlisle as Chief Justice of the Supreme Court.

Speaker Carlisle has purchased a residence in Washington City, at a cost of \$24,000. It is the building formerly occupied by the German Embassy.

At an election held at Oskaloosa, Kansas, last week, a ticket composed of women for the Council and a woman for Mayor was elected by a majority of sixty-six.

The Hatfield habeas corpus case was again up in the Federal Court last week before Judge Jackson on appeal. The former decision was sustained. An appeal will be taken to the Supreme Court.

Benjamin H. Brewster, Attorney General in the Cabinet of President Arthur, and one of the most distinguished lawyers in Pennsylvania, died last week in Philadelphia, in his seventy-second year.

The newly appointed State Treasurer, Judge S. G. Sharp, of Lexington, has filed his official bond with the Secretary of State. The bond is endorsed by competent authority as representing \$400,000 of wealth.

The Senate has passed a very important bill, limiting the amount of debt which a county may assume in the aid of a railroad to four per cent. of the assessed value of the real and personal property of said county.

In the News this week appears the announcement of Mr. A. L. Shannon for Sheriff. The record made by him in his present term is all the recommendation that is necessary. The probabilities are that he will have no opposition.

Jacob Sharp, the New York millionaire, whose name became notorious through his bribing the New York Aldermen to grant him a railroad franchise on Broadway, died last week. He began life as a poor farmer boy, and died a millionaire.

Cornelius, of Mt. Sterling, the assaulter of Judge Reid, has made another unsuccessful attempt through the courts to secure his liberty. It seems quite probable that he will finish his three years sentence in jail before he secures liberty.

The commemoration of the fourth centennial of the discovery of America by Columbus has been ordered by the Spanish Government. Spain has decided, as she should, to take the lead in the celebration. America should not fail to handsomely do her part.

An order was made in the Supreme Court last week assigning Justice Harlan to the Fourth Judicial circuit, vice Chief Justice Waite, deceased. This assignment is a compliment to Kentucky's representative on the Supreme Bench which will be appreciated by his friends.

Governor "Windy" Wilson, of West Virginia, and Marshal Jack Gross, of Kentucky, had a bout a few days ago, in which Capt. Gross told "Windy" that he "didn't care a damn for his opinion." It will be remembered that Mr. Gross is the man who, when in conversation with President Cleveland some months ago, slapped the President on the knee. These facts show that the Marshal is inclined to be unusually familiar, especially with Executives. He is a hustler, nevertheless, and very popular.

The House Pension Committee has decided to report favorably the Dependent Pension Bill, which has already passed the Senate. There is an amendment to the bill, which was also favorably reported, known as the Per Diem Service Pension Bill, providing for every Northern soldier a monthly pension of one cent for every day of service in the war. This Dependent Pension Bill is the one which Senators Beck, Blackburn and Vest denounced as involving an outlay of \$500,000,000.

Louisville Times: Young Mr. Yerkes, of Boyle, and young Mr. Brown, of Garrard, have concluded that they don't want their Uncle Jim McCreary's Congressional seat next year—s'mother year they might be induced to take it.

Louisville Times: Gov. "Windy" Wilson and ex-Congressman "Useless" Gibson, of West Virginia, are not so pretty as they were when they began monkeying with Kentucky justice, but they know a good deal more law.

A more solemn and impressive scene than was furnished Friday in the trial of James W. Tate for high crimes and misdemeanors, was never witnessed in Frankfort. The very air of the Senate chamber was freighted with burdensome solemnity, and everybody was relieved when the dreadful event which removed a high officer of State from office, and set the seal of disgrace, of evermore dishonourment upon him, was ended. There was no heart among the responsible participants, on that baleful occasion, that was not wrung to its uttermost by the dreadful duty imposed, and no voice heard that did not betray the profoundest sense of the distressing responsibility which rested upon the Senate, its Speaker and the House Managers.—Frankfort Capital.

The Democratic State Convention of Oregon in session last week reported and unanimously adopted a tariff reform platform. The first section heartily indorsed President Cleveland. The third section is as follows: "We earnestly and unqualifiedly indorse the policy of tariff revision and reduction of the surplus revenue to the needs of the Government's economical administration as set forth in the President's last annual message to Congress. We believe that such a resolution is dictated by a sound policy, and that unnecessary taxation is unjust taxation, and oppressive, and that the public revenue should, as far as possible, be derived from taxes levied upon the luxuries, rather than the necessities of life." This is the first gun of the campaign and the shot goes straight to the center.

The dead-lock upon the bill providing for the refunding of the direct war taxes to the States continues. The bill is the child of the latitudinarian idea that we are out for the stuff, as the phrase is. It has become the fashion to go for an appropriation wherever you see it. We find the style set in pension legislation, in river and harbor bills, in the Blair absurdity, and now it has extended to a refunding of taxes collected more than a quarter of a century ago. The twag is in the Treasury, and every little statesman in the land is bent on getting some of it for his district, or his State. That the bill will ultimately pass there is little doubt, and it is to be hoped that it will encounter the veto club when it reaches the White House.—Louisville Times.

There are more printers in the House of Representatives than members of any other single occupation or profession, except the law. Amos Cummings, of New York, was a ramp printer, and says he has set type in every State in the Union. Senator Plumb was first a printer, then an editor, and finally a banker. Gallinger, of New Hampshire, was a printer by afterthought, studied medicine. Forquhar, of New York, is not only a printer, but was once President of the Typographical Union. "Tim" Campbell was once a compositor on the New York Herald when he was elected to the N.Y. Legislature. O'Donnell, of Michigan, learned the printing business and has always kept at it. Dingley, of Maine; Foran, of Ohio; Nicoll, of North Carolina; Wickham, of Ohio; Hudd, of Wisconsin, and Yost, of Virginia, were all printers.—Ex.

Gov. "Windy" Wilson, of West Virginia, should beware of monkeying with Marshal Jack Gross, of Kentucky. A man who would slap a President on the knee without provocation, might be provoked into smacking a Governor where it would do more good. Let us have peace.—Louisville Times.

Kentucky Notes.

Silver and lead mines are soon to be opened in Scott county.

Gov. Buckner vetoed the bill making the Mayor of Louisville eligible to re-election.

Murphy, the great temperance evangelist, has begun a series of meetings in Louisville.

A bill was introduced in the Legislature last week reducing the fees for marriage license to fifty cents.

A handsome monument has been erected to the memory of Tom Broeck, the noted Kentucky horse.

Thos. Waltz, a negro who cut a white man's throat in Lexington Saturday afternoon, was arrested in Frankfort Sunday.

An old woman was tried in Louisville last week for the murder of another woman, and was sentenced to thirteen years in the penitentiary. Miss Jasper, a wealthy maiden lady of Pulaski county, shot and fatally wounded a negro who was attempting to enter her house for the purpose of robbery.

The Senate has passed a bill authorizing the Governor to appoint an assistant physician, who shall be a white woman, in each of the asylums for the insane.

Daniel Boone's whisky bottle has been discovered in a log of an old fort at Booneville Ky. Only a few spoonfuls of the liquor remained, and the buckskin wrappings bore the initials "D. B." and the date "1768." A gentleman offered \$1 a drop for the whisky. An exchange wants to know what is the rate for a smell of the bottle.

The Legislature is one hundred days old today, and has cost the State \$100,000. By the way, is there no one in the House or Senate to arise and say: "Mr. Speaker, if the railroads have no further business before this General Assembly, I move that it do now adjourn, sine die?"—Courier-Journal. (7th.)

The House was occupied for some time with a resolution providing for the appointment of a Commission by the Governor to prosecute the investigations now being attempted by the General Assembly. These investigations compose about all the business remaining to be done by the Legislature, and they should adopt the resolution and adjourn.

Ammonia in Baking Powders.

[From the Scientific American.] Among the recent discoveries in science and chemistry, none is more important than the uses to which common ammonia can be properly put as a leavening agent, and which indicate that this familiar salt is hereafter to perform an active part in the preparation of our daily food.

The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame, and it will almost immediately be entirely developed into gas and pass off into the air. The gas thus formed is a simple composition of nitrogen and hydrogen. No residue is left from the ammonia. This gives it its superiority as a leavening powder over soda and cream of tartar used alone, and has induced its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter and more wholesome than that risen by any other leavening agent. When it is acted upon by the heat of baking, the leavening gas that raises the dough is liberated. In this act it uses itself up, as it were; the ammonia is entirely dissolved, leaving no trace or residuum whatever. The light, fluffy, flaky appearance, so desirable in biscuits, etc., and so sought after by professional cooks, is said to be imparted to them only by the use of this agent.

The bakers and baking powder manufacturers producing the finest goods have been quick to avail themselves of this useful discovery, and the handsomest and best bread and cake are now largely risen by the aid of ammonia combined, of course, with other leavening material. Ammonia is one of the best known products of the laboratory. It is gas, known to be justly claimed for it, the application of its properties to the purposes of cooking, results in giving us lighter and more wholesome bread, biscuit and cake, it will prove a boon to dyspeptic humanity, and will speedily force itself into general use in the new field to which science has assigned it.

Here is the colored man and brother obtruding himself into a white school in Frank Finley's town, and Frank Wolford a-camping on the Hon. Finley's track at the same time. As Judge Jim Jewell eloquently remarks, "politics is hell."—Louisville Times.

Renews Her Youth.

Mrs. Phebe Chesley, Peterson, Cay Co., Iowa, tells the following remarkable story of the truth of which is vouched for by the residents of the town: I am 73 years old. have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Eclectic Bitters for having renewed my youth, and restored completely all disease and pain. WHAT AM I TO DO?
The symptoms of Biliousness are unhap-
pily but too well known. They differ
in different individuals to some extent.
A Bilious man is seldom a breakfast eat-
er. Too frequently, alas, he has an ex-
cellent appetite for liquids, but none for
solids of a morning. His tongue will
hardly bear inspection at any time; if it
is not white and furred, it is rough, at all
events.

The digestive system is wholly out of
order, and diarrhea or constipation may
be a symptom of the two or alternate.
There are often hemorrhoids or even loss
of blood. There may be giddiness and
often headache and acidity or flatulence
and tenderness in the pit of the stomach.
To correct all this it is not effect a cure
try Green's August Flower. It cost but a

Now vs. Then

Our oldest inhabitant delights to refer to the time when, but when you pin him down he reluctantly yet honestly admits that he can no longer name an item or an industry that is not improved in these days. He is not alone in this. The article "Hood's Sarsaparilla" in the issue of the 15th of March, 1894, is a case in point. Why, it would have been almost impossible to have produced it to the satisfaction of the public.

In the preparation of this medicine the articles which investigation has proven to be the most efficacious have been selected, and are discarded. The ingredients are of the highest quality, and are obtained and a combination formulated, which is the result of the experience of the most effective medical agents of the vegetable kingdom put together. The medicinal properties are secured by the most modern and original that an eminent professor in the Massachusetts College of Pharmacy, Boston, has been able to procure through C. C. Hood's mammoth establishment, stopped at and looked Mr. Hood in the eye exclaiming: "This is the present." "This is the past." "This is the future."

Another point worth of mention right here is the fact that the Hood's Sarsaparilla is not an accident. It was a gift of Providence to the people. It was created and reaped by men thoroughly educated in the manipulation of medicines and is made to-day as it was made then. It is the result of the personal supervision of the proprietor, and is not a mere chance made in the selection and purchase of every article that enters into Hood's Sarsaparilla, and the cleanliness of the process with which it is made. The Sarsaparilla is conducted in a manner that would not wonder at its great success and power or at the hold it has on public confidence. It is successful because it is the result of real merit. It succeeds because every purchaser a fair equivalent for his money—One hundred doses one dollar.

quicker than any known remedy. It was the only cure of the "Painful Grippe" and the most extraordinary pains, acute inflammation of the respiratory organs, whether of the Lungs, Sore Throat, or Bronchitis, and of the Stomach. No matter how violent or excruciating the pain, it is relieved in a few minutes by the use of the Neutralizer, or Protractant with Chinese and Radway's Pain-Expeller.

RADWAY'S READY RELIEF
Will Afford Instant Ease.

Internally, a half to a teaspoonful in half a glass of water will relieve the most violent Spasms, Neuralgic, Rhoism, Nausea, Vomiting, Hoarseness, Croup, Whooping Cough, Diarrhoea, Colic, Flatulency, Stomachic Distress, and all other ailments of the Digestive System. It will also relieve the Malaria in its various forms, and prevent the return of the disease. It is the best cure for fever and ague and all other fevers (aided by Radway's Fever-Expeller) and all kinds of Rheumatism.

ACIDITY AND PAINS.
For the relief of the most violent Headache, Neuralgia, Hysterical and Sleepless, Rheumatism, Lumbago, pains and weakness in the limbs, Stomachic Distress, Indigestion, Pleurisy, swelling of the joints and pains of the heart, it will afford instant relief, and its continued use will insure permanent cure. Price, 25 cents. Sold by all druggists.
